

WEDNESDAY AFTER SCHOOL ART CLASS

Lea County Commission for the Arts goal is to offer each child a quality experience in the fine arts. At the Center for the Arts, programs are developed to meet this goal. In the Wednesday afternoon class, we have designed age-specific classes to encourage creativity in your child. We provide the space, supplies, and instructor to meet these guidelines. Two hours each Wednesday will be devoted to completing an art project. Classes are designed for hands-on experience in various media creating 2-dimensional and 3-dimensional art.
